2-PACK PROFILE DOORS

Polytec's beautifully crafted range of cut & rout doors & panels will add character to your home. From sleek, contemporary minimalistic designs to the more traditional look of country style doors, polytec can supply a style that will complement your kitchen.

Cut & Rout Profile doors & panels are made from profiled moisture resistant E0 MDF, which are then sanded down and sprayed in 2-pack paint (acrylic paint colour mixed with a hardener resin). The result is a stylish, fully profiled door in any colour you desire, avaiable in a satin or gloss finish.

Stylish, functional, and simple, profile doors & panels are suitable for any internal joinery application including kitchens, vanities, wardrobes, TV units, storage units and laundry cupboards.

Using high grade materials and ultra-modern technology, polytec products are exceptional in design and durability.

Polytec are the market leaders in custom-made kitchen cabinet doors. Our success results from over 20 years of manufacturing experience, and we are proudly Australian made and owned.
